25X1

[redacted] Met with Mr. Kandela, in the office of Congressman Lawrence G. Williams, and gave him a copy of the "support package". Mr. Kandela felt the "package" would be quite helpful in connection with developing a statement for Mr. Williams which he may use in a speech in his congressional district.

25X1

[redacted] Met with Mr. Samuel Scott, Senate Internal Security Subcommittee staff, who returned to me the papers provided in response to his request for information concerning treatment of Americans in the Soviet Union, which had been requested for utilization in preparing a study for Senator Dirksen in relation to the Consular Treaty Convention. Mr. Scott advised that apparently similar papers had been provided another Senate office in keeping with a similar request to the Agency and that although probably not reported back to the Agency, had not left a good impression with that office.

25X1

[redacted] After attempts by Mr. William Carpenter, Department of State, to identify a magazine provided the Secretary of State by Representative Edna Kelly and referred to in the Director's briefing of House Foreign Affairs Committee, I attempted further identification of the item with Mr. Boyd Crawford, Staff Director, House Foreign Affairs Committee. It was Mr. Crawford's advice that we not pursue the matter further as far as attempting to identify the magazine or article in question.
